## How to get your prescription

The easiest way is to request one via our homepage:

[www.diabetes-minden.de](http://www.diabetes-minden.de)

Ordering prescriptions and referrals is simple: just select Service from the menu.

Alternatively you can choose from the following options:

**Requests post-box** To the right of the practice entrance inside the building

**Fax** 0571-4045614

**Telephone** 0571-840999

**Email\*** [tuer@diabetes-minden.de](mailto:tuer@diabetes-minden.de)

*\* Please remember:*

*Anything that is sent via email is sent as plain-text via the internet. For this reason, email messages should be thought of like a post-card, i.e. the text can be read by anyone who gains access to the text by chance/by mistake.*

We process all incoming requests daily between 17:30 and 18:30.

You can then collect the signed forms during consultation hours on the following working day.

Unfortunately requests received after 17:30 cannot be processed for the next working day.
